## NEWS

### Sexual Health Garden Clinic Service is moving to a booked-appointment system

From September 2019, in order to reduce the waiting times for patients, the Sexual Health Garden Clinic Service will be providing the vast majority of their service via an appointment-only system, booked online. Click [here](#) to find out more.

### PHE Delayed Influenza Vaccines

Each year, the World Health Organisation (WHO) through its Global Influenza Programme makes recommendations on what influenza viruses should be included in vaccines for the forthcoming season. More information on the recommendations can be found [here](#).

### Ciprofloxacin resistant cases of non-groupable meningococcal infection connected to recent travel to Mecca

Three non-groupable meningococcal isolates with ciprofloxacin resistance (which is highly unusual in the UK) have been identified in two cases of conjunctivitis and one case of invasive disease in England. More information about this can be found [here](#).

### Update on an issue regarding the Cervical Screening programme

Capita have notified us that due to an administration error, emails and letters sent to Capita relating to cervical screening were not processed correctly. These pieces of correspondence relating to screening were not processed as they should have been. A full review found the vast majority of these unprocessed items were correctly handled through another route, as part of the NHS Cervical Screening fail safes that are in place, but that 16 women missed an invitation to attend their appointment. More info can be found [here](#).

### Campaign to raise awareness of digital maternity exemption certificates for mothers

Midwives and GPs can sign up via our website through the link [here](#). They just need to provide their name, NMC/GMC number and their nhs.net email address. More information can be found [here](#).
